

NEW MEXICO MEDICAL INSURANCE POOL (NMMIP)

POLICY AMENDMENT

Carveout Plan

Effective January 1, 2018 outpatient Prescription Drug coverage under the NMMIP Carveout Policy will change. The Policy will stop providing Prescription Drug benefits except as a secondary payer to Medicare. **You must be enrolled in Medicare Part A, Part B and Part D before you receive secondary benefits for your Prescription Drugs through this Policy.** The Policy will coordinate, as a secondary payer, Prescription Drug benefits with Medicare.

Here's How the Program Works.

When your Physician writes an order for a Prescription Drug, the pharmacy fills the order. The order must be filled at a participating MedTrak Pharmacy Services pharmacy, with your NMMIP Policy ID card.

The pharmacy files the claim with your Medicare Part D insurance carrier. At the same time, the pharmacy will automatically file a claim with NMMIP.

You will pay the appropriate out-of-pocket costs, if any, that are not covered by Medicare or the Prescription Drug benefits of your NMMIP Policy.
